Neck Lipo with RF Energy

July 27, 2022

7:30 pm Central Time

Zoom

Description

Minimally invasive neck procedures are very popular. The key to success is appropriate patient selection and managing expectations.

This presentation will discuss patient selection, counseling, procedure, recovery, possible complications, and their management.

Flora Levin, MD

Dr. Levin graduated from the Weill Cornell Medical College in New York City. She then completed her residency in ophthalmology at the University of Medicine & Dentistry of New Jersey and, while there, was elected Chief Resident. She then completed a neuro-ophthalmology fellowship at Columbia University, followed by a fellowship in ophthalmic plastic, reconstructive & orbital surgery at the prestigious New York Eye & Ear Infirmary.

Dr. Levin was previously the Ophthalmic Plastic & Orbital Surgery director at the Yale University School of Medicine/Yale-New Haven Hospital and is also a Clinical Assistant Professor there. Dr. Levin was in private practice for a few years before opening her practice in Westport in 2016.

Board certification can be seen as the gold standard in surgery. Dr. Levin is board-certified and a diplomat of the American Board of Ophthalmology, and a fellow of the American College of Surgeons. She is also a member of the American Society of Ophthalmic Plastic & Reconstructive Surgery (ASOPRS), with less than 700 members in the United States.

In accordance with the ACCME Accreditation Criteria, the American College of Surgeons must ensure that anyone in a position to control the content of the educational activity (planners and speakers/authors/discussants/moderators) has disclosed all financial relationships with any commercial interest (termed by the ACCME as “ineligible companies”, defined below) held in the last 24 months (see below for definitions). Please note that first authors were required to collect and submit disclosure information on behalf all other authors/contributors, if applicable.

- **Ineligible Company:** The ACCME defines an “ineligible company” as any entity producing, marketing, re-selling, or distributing health care goods or services used on or consumed by patients. Providers of clinical services directly to patients are NOT included in this definition.
- **Financial Relationships:** Relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.
- **Conflict of Interest:** Circumstances create a conflict of interest when an individual has an opportunity to affect CME content about products or services of an ineligible company with which he/she has a financial relationship.

The ACCME also requires that ACS manage any reported conflict and eliminate the potential for bias during the educational activity. Any conflicts noted below have been managed to our satisfaction. The disclosure information is intended to identify any commercial relationships and allow learners to form their own judgments. However, if you perceive a bias during the educational activity, please report it on the evaluation.

Disclosure Information

Disclosures

Speakers, Moderators, Discussants, Authors	Nothing to Disclose	Disclosure			
		Company	Received	Role	Mitigation
Flora Levin, MD		InMode KOL	Honoraria	Speaker	Presentation will include validation of evidence- based content and a review of presentation slides.
